

**90%** of all data in the world was created in the last 2 years.

**- IBM**

The background is a dense collage of various data visualizations. It includes a map of the United States in the top right, a bar chart with blue bars in the middle right, a network graph with yellow nodes and edges in the center, a heatmap with green and red cells in the top left, and a scatter plot with orange and blue points in the bottom right. There are also several other charts, including a pie chart, a line graph, and a map of a specific region. The text "Visualization reduces cognitive efforts to understand and reason about data" is overlaid in the center in a large, white, sans-serif font.

**Visualization** reduces cognitive efforts to understand and reason about data
